

UAE Monthly Monetary Survey February 2019

Monetary Developments (*)

 $\mathbf{M_1}$ increased by 3.1%, from AED 486 billion at the end of January 2019 to AED 501.1 billion at the end of February 2019. This rise was brought about by 3.1% increase in Currency in Circulation outside Banks (14.6% of $\mathbf{M_1}$) and 3.1% increase in Monetary Deposits (85.4% of $\mathbf{M_1}$).

At the end of February 2019, M_2 increased by 1.2%, climbing from AED 1305.5 billion at the end of January 2019 to AED 1321.3 billion. M_2 mainly increased due to an elevated M_1 and an AED 0.7 billion or 0.1% increase in Quasi- Monetary Deposits (62.1% of M_2).

 M_3 also increased by 1%, from AED 1603.1 billion at the end of January 2019 to AED 1619.4 billion at the end of February 2019. M_3 mainly increased because of increased M_1 and M_2 and an AED 0.5 billion or 0.2% increase in Government Deposits (18.4% of M_3).

In brief, during February 2019, Monetary Aggregates M₁, M₂ and M₃ increased by 3.1%, 1.2% and 1%, respectively.

The Money Multiplier

The money multiplier indicates by how much the money supply and the underlying components will grow following an increase of 1 billion Dirhams in the Monetary Base, defined as the sum of Currency issued (Currency in circulation outside banks and cash at banks), Total Banks' Reserves at the Central Bank and Certificates of Deposits held by Banks (see Table 2).

During the month of February 2019, the Monetary Base expanded by 4.4%. The Monetary Base expanded primarily due to increases in; Currency Issued (23.1% of the Monetary Base) by 2%, Banks' Required Reserves (32.8% of the Monetary Base) by 2.5%, Banks & OFC's Excess Reserves (5.3% of the Monetary Base) by 25.5%, and Certificates of Deposits purchased by Banks (38.7% of the Monetary Base) by 5.1%.

From the end of January 2019 to the end of February 2019, the multipliers of M_1 , M_2 and M_3 decreased from 1.34 to 1.32, from 3.60 to 3.49 and from 4.42 to 4.28, respectively.

The reductions in the multipliers of M_1 , M_2 and M_3 demonstrate a slower growth in their respective Monetary Aggregates in contrast to a greater expansion of the Monetary Base.

(*) Monetary aggregates are defined in a footnote to Table 1

Table 1. UAE Monthly Monetary Survey With Contribution to Aggregate Money Supply (February 2019) (End of period, billions of Dirhams)											
			Dec-16	Dec-17	Dec-18 ¹	Jan-19	Feb ¹ 2019		MoM

⁽¹⁾Figures are provisional and subject to revision

 $\mathbf{M}_2 = \mathbf{M}_1 + \mathbf{Quasi-Monetary Deposits}$

 $M_3 = M_2 + Government Deposits$

⁽²⁾ Contribution to aggregate growth = Shares of the sub-aggregate times percent change in each sub-aggregate, such that contribution of sub-aggregates equals percent change in the aggregate

 $^{^{(*)}}M_1$ = Currency in Circulation Outside Banks (Currency Issued - Cash at banks) + Monetary Deposits

^(**) Monetary Deposits: All short term deposits on which bank customer can withdraw without prior notice

^(***) Quasi-Monetary Deposits: Resident Time and Savings Deposits in Dirham + Resident Deposits in Foreign Currencies

⁽¹⁾ Figures are provisional and subject to revision

^{*} Currency Issued = Currency in circulation outside Banks + Cash at Banks

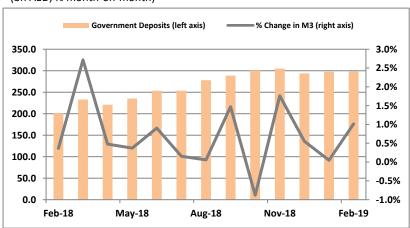

Money Supply M₁ increased by 3.1%, due to a 3.1% rise in Monetary Deposits.

(bn AED, % month-on-month)

Money Supply M_3 increased by 1% due to increased M_1 & $M_{2,}$ augmented by a 0.2% increase in Government Deposits.

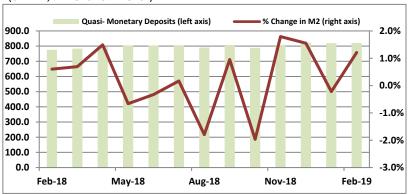

(bn AED, % month-on-month)

Source: RSD - CBUAE

Money Supply M_2 increased by 1.2% due to an increased M_1 and a 0.1% increase in Quasi-Monetary Deposits.

(bn AED, % month-on-month)

The Monetary Base expanded by 4.4% during February 2019.

(bn AED, % month-on-month)
